

**Call for Papers**  
**ACMSE 2018**  
**The Annual ACM Southeast Conference**  
Perkins Conference Center  
Eastern Kentucky University  
Richmond, Kentucky  
March 29 – 31, 2018

Website: <http://acmse2018.eku.edu/>  
Email: [chi.shen@kysu.edu](mailto:chi.shen@kysu.edu)

**Special Theme:**

***Machine Learning and Cybersecurity – Empower ourselves to fight cybercrimes with innovative research.*** We seek contributions that demonstrates the impact of computational models, algorithms, and applications, especially in machine learning, on fighting cybercrimes.

**General Theme:**

In keeping with the overall theme of the ACM Southeast Conference, we solicit contributions in all aspects of computing and related disciplines. Submissions in multidisciplinary and interdisciplinary computing are especially welcome.

**Regular papers** up to 8 single spaced pages in length. Papers will be double-blind peer reviewed. A “blind” manuscript must be submitted for review, lacking author(s) names and affiliations. The final camera-ready version will include authors and affiliated institutions.

**Faculty and Student Posters** authored by faculty or graduate and undergraduate students. Poster proposals must be submitted as an extended abstract including the sections of Problem and Motivation, Background and Related Work, Approach and Uniqueness and Results and Contributions. Proposals are not to exceed 3 pages.

**Submission and Deadline Information:**

Submissions should follow the ACM conference format at <http://www.acm.org/publications/proceedings-template>.

All submissions must be submitted electronically as either an Adobe PDF file using EasyChair for all submissions.
